# METHODS : EXAMPLE

A search was performed on PubMed, Ulysse and Google Scholar, using the terms “vaccination, personalized medicine”, “vaccinomics”, and “immune response.” A total of 40 articles were retrieved, 7 were not in English or French and were excluded, 28 were not considered sufficiently relevant, and 1 was not yet peer-reviewed. Additional research of the grey literature yielded two further technical reports which we retained, producing a total of 6 documents for analysis.

# LOGICIELS

## Edition d'image

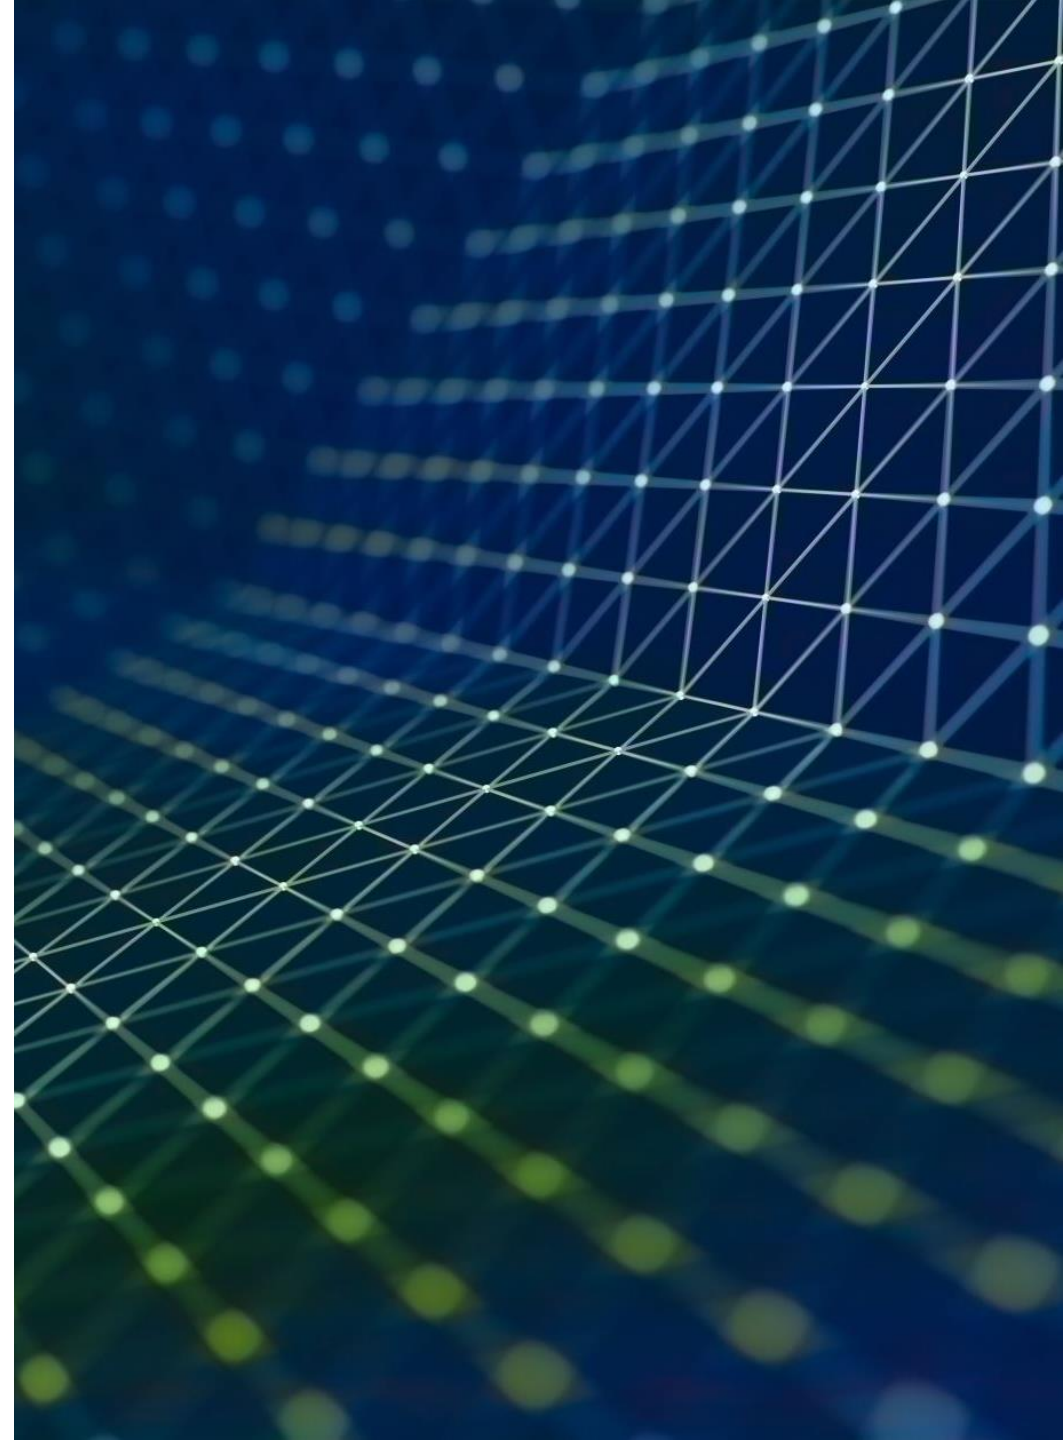

- Vectorielle : Adobe Illustrator, Inkscape...
- Photos : Adobe Photoshop, Gimp...

## PAO

- Adobe InDesign, Microsoft Publisher, Scribus

## Présentation

- Apple Keynote, Microsoft PowerPoint, LibreOffice Impress...
